Hi Mark and Rick,

Thank you for the excellent job you completed recently. The blinds, the windows, the window sills and the screens were cleaned perfectly and expeditiously. The tools you used are truly useful - the microfiber glove for the blinds was a great find. And I was pleased there were no chemicals used. It's great to have you do this work before the holidays and then again in the spring (after the pollen abates.)

Should you have someone who might like to come by to see your job, please let me know.

Sincerely,

Jan
